APPGM-SDG Pemacu Pembangunan Mampan di Negeri Sempadan Malaysia-Thailand

APPGM-SDG: Driving Sustainable Development in Malaysian-Thai Border States

YB Tuan Rushdan Rusmi (Ahli Jawatankuasa APPGM-SDG dan Ahli Parlimen Padang Besar) melalui keratan akhbar di Sinar Harian mengulas tentang peranan APPGM-SDG sebagai pemacu pembangunan mampan di negeri sempadan Malaysia-Thailand. Menurut beliau, APPGM-SDG dilihat sebagai wadah strategik dan berkesan dalam membawa suara rakyat sempadan ke arus pembangunan negara. Pendekatan komuniti akar-umbi ini dapat dilakukan melalui kerjasama komuniti melalui Rakan Solusi (SP), Ahli Parlimen, pihak berkuasa tempatan, agensi kerajaan, dan pertubuhan masyarakat sivil.

APPGM-SDG juga dikatakan dapat memperkukuhkan keselamatan dan ketahanan komuniti di kawasan sempadan melalui pendekatan pembangunan inklusif yang dipacu oleh komuniti itu sendiri. Harapan beliau adalah supaya parlimen dan agensi berkepentingan dapat menjadikan negeri-negeri sempadan sebagai fokus utama pelaksanaan APPGM-SDG bagi fasa seterusnya.

In a news article in Sinar Harian, YB Tuan Rushdan Rusmi (APPGM-SDG Committee Member and Member of Parliament for Padang Besar) commented on the role of APPGM-SDG as a driver of sustainable development in the Malaysian-Thai border states. According to him, APPGM-SDG is a strategic and effective platform for bringing the voice of border residents into the mainstream of national development. This grassroots community approach is made possible through collaboration between the community via Solution Providers (SP), Members of Parliament, local authorities, government agencies, and civil society organisations.

He also stated that APPGM-SDG can strengthen the security and resilience of border communities through an inclusive development approach driven by the community itself. He hopes that Parliament and relevant agencies will make the border states a primary focus for the next phase of APPGM-SDG implementation.

"Penduduk bukan sahaja menjadi penerima dasar, malah menjadi pelaksana bersama."

"The people are not only policy beneficiaries but also co-implementers".

Kajian mendapati bahawa PDK di kawasan bandar mempunyai persekitaran yang lebih kondusif berbanding PDK di luar bandar yang serba kekurangan. Antara isu utama yang dikenal pasti merentasi ketiga-tiga pusat ini ialah ketiadaan dana kecemasan, skop kerja yang tidak khusus untuk kakitangan, kekurangan kursus dan latihan yang relevan, serta fasiliti yang usang kerana kebanyakannya adalah sumbangan sekali sahaja. Hal ini menimbulkan kebimbangan mengenai halatuju dan penambahbaikan berterusan untuk PDK dan pelatihnya.

Daerah Kuching - Kajian Pusat Pemulihan Dalam Komuniti (PDK)

Kuching District - Community Rehabilitation Centre Study

107

Kajian tentang Pusat PDK telah dijalankan di Kuching, Sarawak melibatkan empat lokasi iaitu PDK Sri Satok, PDK Gita Matang, PDK Wawasan Harapan, Kg. Buntal dan PDK Sinar 1 Malaysia, Family Park. Dapatan menunjukkan keterbatasan peruntukan memaksa aktiviti dijalankan dengan perbelanjaan sendiri, elaun tidak setara dengan beban tugas, serta ketidakseragaman garis panduan termasuk pendokumentasian dan sistem fail kewangan hingga ada PDK bergantung pada sumbangan ibu bapa. Inisiatif program seperti 1PDK 1Produk yang pernah diterima baik juga dikhuatiri mengalih fokus daripada fungsi utama PDK sebagai pusat pemulihan. Justeru, disyorkan agar pengiktirafan dan imbuhan setimpal diberikan kepada penyelia dan petugas, panduan operasi diselaraskan, serta PDK terus diperkasa sebagai entiti penting pembangunan komuniti selaras dengan prinsip SDG "Tidak Meninggalkan Sesiapa."

A study on Community Rehabilitation Centre was conducted in Kuching, Sarawak, covering four locations: PDK Sri Satok, PDK Gita Matang, PDK Wawasan Harapan, Kg. Buntal, and PDK Sinar 1 Malaysia, Family Park. The study found that limited funding has forced activities to be carried out using personal expenses, allowances are not aligned with the workload, and inconsistencies in guidelines including documentation and financial filing systems have caused some PDKs to rely on contributions from parents. In addition, programme initiatives such as 1PDK 1Product, which were previously well-received, are now seen as potentially diverting focus from the primary function of PDK as rehabilitation centres. Therefore, it is recommended that proper recognition and fair remuneration be given to supervisors and staff, operational guidelines be standardised comprehensively, and PDKs be further strengthened as key entities in community development, in line with the SDG principle of "Leaving No One Behind."

A study on Community Rehabilitation Centre was conducted in Serian, Sarawak, specifically at the Pertubuhan Pemulihan Dalam Komuniti Serian. The two-hour and three-minute session found that local leaders and the surrounding community still lack awareness of the importance and role of the PDK. 109

Parlimen Bandar Kuching - Perbincangan Kumpulan Fokus bersama NGO
Bandar Kuching Parliament - Focus Group Discussion (FGD) with NGO

110

Sesi Perbincangan Kumpulan Fokus (FGD) bersama NGO telah diadakan di Pejabat APPGM-SDG Wilayah Sarawak bersama Sarawak Women for Women Society, Purple Lily dan Sarawak Dayak Graduates Association yang memfokuskan kepada dua isu kritikal di Sarawak: kehamilan remaja dan populasi menua. Berkenaan kehamilan remaja, NGO mendapati kesedaran kesihatan reproduktif adalah rendah disebabkan budaya tabu dan wujudnya kelemahan perundangan, khususnya amalan perkahwinan adat, selain proses permohonan program kesedaran di sekolah yang tidak konsisten. Manakala bagi isu populasi menua, Sarawak dijangka menjadi negeri menua menjelang 2028, namun kemudahan penjagaan dan sokongan untuk warga emas, terutamanya pesakit demensia, masih tidak mencukupi, manakala sukarelawan pula kurang latihan. Secara keseluruhannya, FGD ini menegaskan wujudnya jurang antara keperluan komuniti dengan dasar dan pelaksanaan di lapangan, yang memerlukan intervensi sosial yang lebih inklusif, praktikal, dan disokong oleh kemahuan politik yang kuat agar kumpulan rentan tidak terpinggir daripada pembangunan.

The Focus Group Discussion (FGD) with NGOs (Sarawak Women for Women Society, Purple Lily dan Sarawak Dayak Graduates Association) was held at the APPGM-SDG Sarawak Regional Office, focusing on two critical issues in Sarawak: teenage pregnancy and the ageing population. Regarding teenage pregnancy, NGOs found that reproductive health awareness is low due to a taboo culture and the existence of legal loopholes, particularly in customary marriage practices, in addition to inconsistent application processes for awareness programmes in schools. For the issue of the ageing population, Sarawak is expected to become an aged state by 2028, yet care facilities and support for the elderly, especially dementia patients, are still insufficient, and volunteers lack specialised training. Overall, this FGD emphasised the existence of a gap between community needs and policy and implementation on the ground, requiring social intervention that is more inclusive, practical, and supported by strong political will so that vulnerable groups are not marginalised from development.
