# EDITORS & CONTRIBUTORS

## MUHAMMAD NORAIMAN HAKIM AHMAD ZAKI

Officer,  
Community Based Development Projects,  
Project Management Department

Aiman Zaki holds a degree in Agriculture and Biosystems Engineering (Hons). His role involves project management, particularly in Solutions initiatives. By combining his background as an engineer and extensive experience in various organisations roles, he actively worked with corporate and grassroots communities. His dedication to serve the community highlights his commitment to ensure the community has a better life.

## NUR FATEHAH ABD KADIR

Officer,  
Food Security,  
Project Management Department

Nur Fatehah oversees community farming projects in the East Coast zone. She holds a Diploma in Town and Regional Planning from Polytechnic Sultan Abdul Halim Mu'adzam Shah (POLIMAS) and a Bachelor's Degree in Town and Regional Planning (Hons.) from the University of Malaya (UM). Prior to joining APPGM-SDG, she worked as a Town Planner in the private sector, where she managed Social Impact Assessment (SIA) projects with a focus on urban, rural, and community development. Her expertise bridges planning, community engagement, and sustainable development, contributing to impactful grassroots initiatives.

## NUR SHAIDATUL SAHIRA

Officer,  
Food Security,  
Project Management Department

Shaidatul holds a degree in Environmental Management from Universiti Malaya, with a foundation in sustainable development, resource management, and environmental policy. She leads food security initiatives in the Central Zone, focusing on community resilience, sustainable agriculture, and access to affordable, nutritious food. She coordinates stakeholders, implements grassroots solutions, and ensures projects deliver lasting impact for local communities.

## DARSHINI RAWICHANDRAN

Officer,  
Food Security,  
Project Management Department

Darshini overseeing projects in the Southern Zone. She holds a Master's in Agricultural Technology (UPM), specializing in soil microbiology and fertility, and a Bachelor's in Plant Science and Resource Management (UNIMAS). Previously, she served as a Research Officer at FRIM, contributing to soil management projects under the 12th Malaysia Plan. An active member of the Malaysian Society of Soil Science (MSSS), she has published in local and international journals. Her work focuses on sustainability and empowering communities through eco-friendly practices.

# FOREWORD

## **JAMES RYAN RAJ**

*Acting Deputy Executive Director,  
APPGM-SDG Secretariat*

In 2024, the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG) deepened its grassroots engagement through the expansion of Food Security Initiatives and Community-Based Development Projects (CBDP) across Malaysia. Together, these initiatives reflect APPGM-SDG's commitment in empowering communities, promoting sustainability, and advancing inclusive, locally driven solutions to national challenges.

Under the CBDP framework, APPGM-SDG expanded its reach to 115 parliamentary constituencies, resulting in 325 community-based projects nationwide. These initiatives were developed under three interlinked themes: Economy, Social, and Environment, embodying a holistic, people-centred approach to sustainable development. Within this broader national landscape, the East Coast Zone emerged as a shining example of what can be achieved through collaboration, shared vision, and local leadership.

Across 21 constituencies in the East Coast Zone, 50 community-based projects and 29 food security initiatives were implemented to strengthen community resilience, improve livelihoods, and promote sustainable agriculture. These initiatives span an inspiring range from programmes that ignite local economies through entrepreneurship and innovation, to social efforts that foster inclusivity, education, and well-being, and environmental projects that safeguard ecosystems and promote responsible resource management.

The success of these East Coast projects is a testament to the leadership and dedication of the officers and teams driving them. Nur Fatehah Abd Kadir, as the Project Officer for Food Security, played a pivotal role in ensuring that every initiative was effectively managed, closely monitored, and aligned with the principles of inclusivity and sustainability. Muhammad Noraiman Hakim Ahmad Zaki, Project Officer in Charge of the East Coast Zone, provided steadfast leadership in management and monitoring of Community-Based Developments Projects, ensuring that local partnerships and governance mechanisms remained strong and transparent.

Through their collective efforts, communities across the region have embraced new forms of skillsets, entrepreneurship opportunities, digital training, skill development programs, education initiatives, environmental projects, cash crop cultivation, sustainable farming practices, and modern agricultural technologies. These transformative efforts have become both an economic opportunity and a powerful means of empowerment.

Supported through various microgrants for training, infrastructure, and production systems, these initiatives have successfully revitalised rural participation and strengthened community resilience. The continued commitment to inclusive development inspires innovation and collaboration, ensuring that no community is left behind in the journey toward sustainable growth and empowerment.

At a time of rising living costs, these projects have served as a lifeline for many families, offering improved household incomes. They demonstrate how modest funding, when paired with vision and collaboration, can yield lasting change by building capacity, instilling confidence, and strengthening social bonds within communities.

The APPGM-SDG Secretariat has continued to refine its governance framework for project recruitment, grant disbursement, and monitoring, ensuring transparency, accountability, and efficient implementation. This governance framework now serves as a benchmark for other public and community programmes, maximizing socio-economic impact at the grassroots level.

This East Coast Zone Directory documents the 50 Community-Based Developments Projects and 29 Food Security projects implemented across the zone. Each entry outlines the objectives, participating organisations, and grant details collectively reflecting Malaysia's shared commitment to advancing the Sustainable Development Goals (SDGs) through innovation, inclusivity, and sustainability.

Ultimately, these may be micro projects, but they are the seeds of larger, resilient community-based systems, proof that sustainable transformation begins with people. They embody the spirit of Malaysians redefining community development, food security, and environmental responsibility through collective action and local wisdom.

Our heartfelt gratitude also goes to Nur Farah Ezzaty, Director of Project Management Department, the community based development projects unit and the food security unit for their dedication in compiling and documenting this directory, and to Prof. Datuk Dr. Denison Jayasooria, Head of the Secretariat, for his visionary leadership and unwavering support. Special thanks are due to Zoel Ng and the Communications Team, whose creative design and storytelling bring to life the

achievements and aspirations of Malaysia's Community-Based Development champions.

As APPGM-SDG continues its journey to strengthen Malaysia's sustainable development ecosystem, the East Coast Zone stands as a beacon of collaboration, trust, and hope, proving that when communities are empowered, the possibilities are boundless.

Together, we are shaping a future where communities are inclusive, resilient, and sustainable, a future built by the people, for the people, and with the people.

# INTRODUCTION

## **NUR FARAH EZZATY ABD AZIZ**

*Director,  
Project Management Department,  
APPGM-SDG Secretariat*

Serving as Director of the Project Management Department under the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG), I am honoured to introduce the East Coast Zone Directory, a tribute to the solution providers and officers whose dedication has transformed our initiatives into lasting community impact.

This Directory is more than a compilation of data; it is a reflection of the partnerships, perseverance, and shared vision that define our work. Under the strong support of Dr Siti as Zone Head, and with the tireless dedication of our project officers, Mrs Nur Fatehah Kadir for the Food Security (FS) Unit and Mr Muhammad NorAiman Hakim Bin Ahmad Zaki for the Community-Based Development Project (CBDP) Unit, the East Coast Zone has made remarkable progress in advancing our mandate. Our officers have worked closely with solution providers, not only through structured monthly reporting but by being physically present on the ground, ensuring that projects remain on track and that communities feel supported.

In the Food Security Unit, the East Coast Zone has successfully implemented 30 projects, comprising 16 Agriculture projects, 8 Animal Breeding projects, and 5 Integrated Farming projects. These have been delivered with the expertise and commitment of 29 solution providers, reaching a total of 310 beneficiaries. Each project is designed to address local food needs, strengthen supply chains, and equip communities with the knowledge and resources to secure their own nutritional future. The results demonstrate the value of targeted interventions supported by capable partners who share our vision for a food-secure society.

In the Community-Based Development Project (CBDP) Unit, the East Coast Zone has delivered 50 projects, spanning 24 Social, 25 Economic, and 1 Environmental initiatives. These were made possible through the involvement of 50 solution providers and have benefited 3,085 individuals across 14 parliamentary constituencies. The breadth of this work reflects our commitment to holistic community development, fostering inclusion, economic empowerment, and environmental stewardship. Together, these efforts contribute to a stronger, more

resilient East Coast Zone, equipped to face present challenges and future opportunities.

#### East Coast Zone Project Overview

UNIT	PROJECT CATEGORY	NO OF PROJECTS	NO. OF SOLUTION PROVIDER	NO OF BENEFICIARIES
Food Security	Farming	21	29	310
	Animal Breeding	8		
<b>Total FS</b>		<b>29</b>	<b>29</b>	<b>310</b>
Community-Based Development Project (CBDP)	Social	24	24	1273
	Economy	25		
	Environment	1		
<b>Total CBDP</b>		<b>50</b>	<b>50</b>	<b>3035</b>
<b>Grand Total</b>		<b>79</b>	<b>79</b>	<b>3396</b>

These numbers tell a powerful story. With **79 projects** implemented across two major units, supported by **79 dedicated solution providers**, the East Coast Zone has touched the lives of **3,386 beneficiaries**. This is not only a testament to the hard work of our officers and partners but also an illustration of SDG 17 in action — forging partnerships that multiply impact and bring tangible improvements to communities. Every figure represents real change, built through trust, collaboration, and shared responsibility between APPGM-SDG, our solution providers, and the communities we serve.

### Kelab Patriotisme Kelantan

#### Solution Provider:

Kelab Patriotisme Kelantan, established on January 16, 2006, is a non-governmental organization focused on fostering patriotism and state pride among the people of Kelantan. It has a history of organizing youth-centric programs and has collaborated with various community associations and the Kelantan state government on past projects.

#### Project Description:

- Collaborated on the "Program Menjana Pendapatan Dari Dapur "From Kitchen To Income" project, which is designed to provide an economic starting point for unemployed youth and single mothers by equipping them with in-demand baking and pastry-making skills.

#### Project Impact:

- Provided youth and single mothers with culinary skills that enabled them to generate a new source of income.
- Enhanced the businesses of existing small-scale entrepreneurs by equipping them with digital marketing skills.
- Created a strong support system and a constructive environment that fostered the growth and sustainability of the participants' businesses.
- Contributes to SDGs 1, 4 & 8.

**Total number of projects:** 1

**Total Amount Disbursed:** RM 40,000

**Kelab Belia Kampung Baru Pak Hussin**

**Solution Provider:**

Kelab Belia Kampung Baru Pak Hussin was established in 2018 with a mission to foster youth with vision and identity. The organisation's main focus is on community development, and this project involves collaboration with the Pasir Mas District's National Anti-Drugs Agency (AADK), the District Education Office, and other NGOs.

**Project Description:**

- Collaborated on the “Pencegahan Dadah dalam Kawasan Parlimen Rantau Panjang & Daerah Pasir Mas #Lebih Baik Cegah – Komuniti / Sekolah Bebas Dadah” project, which is the second phase of an initiative to combat drug abuse in the Rantau Panjang border area, which has seen a trend in “pil kuda” and lorazepam use.

**Project Impact:**

- The project aims to cultivate strong values in students, empowering them to refuse drugs and thereby reduce the number of new addicts.
- By providing safe recreational spaces and continuous education, the long-term goal is to foster a drug-free community and engage youth in positive activities
- The project is able to reintegrate those in recovery through community sports.
- Contributes to SDGs 3, 4 & 17.

### Majlis Belia Jajahan Tanah Merah

#### Solution Provider:

Majlis Belia Jajahan Tanah Merah, founded on November 25, 2009, is an NGO focused on youth development through leadership, community, and socioeconomic programs. It has strong local networks and works with agencies such as AADK on anti-drug initiatives.

#### Project Description:

- Collaborated on the “Pencegahan Dadah dalam Kawasan Parlimen Tanah Merah #Lebih Baik Cegah - Komuniti/Sekolah Bebas Dadah” project, which is a continuation of a Phase 1 initiative aimed at strengthening anti-drug awareness in Tanah Merah, a high-risk area due to a lack of knowledge about drug dangers.

#### Project Impact:

- Strengthened the anti-drug mindset among students through continuous and interactive educational content.
- Reduced the number of new drug users by cultivating values that help students reject peer pressure.
- Created healthy recreational spaces that provided youth with positive alternatives to drug-related activities.
- Contributes to SDGs 3, 4 & 17.

### Sufi Aireez Enterprise

#### Solution Provider:

Sufi Aireez Enterprise began its operations in early 2021, focusing on meat goat farming and local marketing. The enterprise has previously collaborated with APPGM-SDG on an income generation grant for producing silage and plans to work with the Department of Veterinary Services for the current project.

#### Project Description:

- Collaborated on the “Projek Penternakan Ayam Kampung Organik” project, which proposed to address rising youth unemployment and increasing food costs by establishing an organic chicken farming enterprise.

#### Project Impact:

- The primary long-term goal is to enhance food security in Malaysia.
- The project will provide unemployed youths with practical training and skills, enabling them to generate their own income and potentially start their own poultry businesses in the future.
- A long-term plan includes developing value-added products like frozen chicken with a unique brand, burgers, and satay to ensure sustainability.
- Contributes to SDGs 2, 3 & 8.

### Speedglamz Autospa & Detailing

#### Solution Provider:

Speedglamz Autospa & Detailing, established in 2022, has prior experience in organic farming, including managing a Free-Range Chicken Project (2018–2020) and conducting R&D since 2016 on genetics, feed, and organic disease management. Previously served as an agricultural advisor (2015–2017) and has trained others in organic farming since 2019.

#### Project Description:

- Collaborated on the “Ayam Kampung Komersial Berasaskan Organik” project. The project aims to breed organic free-range ‘Ayam kampung’ to produce high-quality food and empower 10 rural participants on a 1-acre community farm with 40 hens and 600 chicks.

#### Project Impact:

- Generated sustainable long-term income through chicken farming.
- Increased access to organic eggs for sale and self-consumption.
- Improved knowledge and skills in chicken farming using technology.
- Promoted responsible and sustainable food production.
- Contributes to SDGs 2, 4, 8 & 12.

### Pertubuhan Generasi Kedua Kesedar (G2K)

#### Solution Provider:

Pertubuhan Generasi Kedua Kesedar (G2K) has 5 years of experience in conventional farming and 5 years in fertigation farming. Among the plants that have been planted are eggplant, chili, pumpkin and watermelon. All the plants have managed to get good results.

#### Project Description:

- Collaborated on the “Tanaman Labu Madu” project with the community B40 in Gua Musang, Kelantan. This project aims to reduce youth unemployment and improve the socioeconomic status of second-generation settlers (G2K) from the B40 group in Gua Musang by providing stable income opportunities and easing living costs through agricultural initiatives.

#### Project Impact:

- Reduced youth unemployment among second-generation settlers (G2K)
- Improved socioeconomic conditions for the local community
- Provided stable income opportunities for B40 youth
- Helped ease the cost of living for participating families
- Contributes to SDGs 1, 8 & 10.

 **SOCIAL**

 **Gua Musang, Kelantan**

**Jawatankuasa Pemulihan Dadah Daerah**

**Solution Provider:**

The organization is a government committee focused on drug prevention and rehabilitation within the Gua Musang district. It works in close collaboration with the National Anti-Drug Agency (AADK) and partners with the District Education Office and other NGOs to implement its community and school-based programs.

**Project Description:**

- Collaborated on the “Pencegahan Dadah dalam Kawasan Parlimen Gua Musang #Lebih Baik Cegah – Komuniti / Sekolah Bebas Dadah” project, which addresses the rising trend of drug abuse (methamphetamine, ketum) among youth in Gua Musang, which is largely due to a lack of awareness of its dangers.

**Project Impact:**

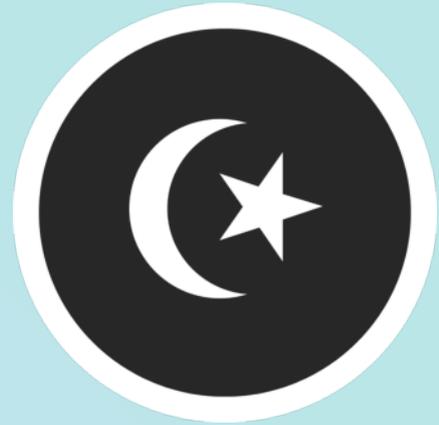

- Provided early exposure to students on the dangers and consequences of drugs.
- Created an engaging and creative early prevention method through anti-drug information corners and recreational facilities.
- Established schools as hubs for drug addiction prevention activities by involving students, teachers, and the community.
- Contributes to SDGs 3, 4 & 17.

## INTEGRATED FARMING

Besut, Terengganu

### Fakulti Biosumber & Industri Makanan (Fbim)

#### Solution Provider:

Fakulti Biosumber & Industri Makanan (Fbim), Universiti Sultan Zainal Abidin Kampus Besut has 5 years' experience in effective Azolla cultivation, community training, and research on plant-based livestock feed, winning national awards and producing high-protein supplements for livestock.

#### Project Description:

- Collaborated on the "Keterjaminan Makanan dan Kesejahteraan Komuniti Besut Melalui Pertanian Bersepadu: Penghasilan Pelet Makanan Ternakan daripada Tumbuhan Akuatik Azolla dan Penternakan Ikan Keli" project. This project aims to enhance food security and improve the well-being of the Besut community by producing high-protein animal feed pellets from Azolla and developing 'ikan keli' farming, thereby reducing reliance on imported grain- and soy-based pellets.

#### Project Impact:

- Improved community participation and engagement in feed pellet production and aquaculture.
- Enhanced knowledge and skills in sustainable livestock feed and fish farming techniques.
- Increased productivity and environmental sustainability by using locally grown, high-protein Azolla.
- Strengthened collaboration between the community, UNISZA, and relevant agencies.
- Contributes to SDGs 1, 2 & 12.

**Total number of projects:** 2

**Total Amount Disbursed:** RM 80,000

# INTEGRATED FARMING

Besut, Terengganu

## Fakulti Biosumber & Industri Makanan (Fbim)

### Solution Provider:

*Fakulti Biosumber Dan Industri Makanan, Universiti Sultan Zainal Abidin* experienced in fish farming research and teaching (2019–2024) with expertise in aquaponics and aquatic plant cultivation, collaborating with communities through APPGM-SDG projects and training members to produce aquaponic products.

### Project Description:

- Collaborated on the “Projek Akuaponik Komuniti Untuk Pertanian Sayur Dan Ikan Tempatan Organik Mampan” with the 1st year students. The project aims to improve food quality and security in Besut by producing organic vegetables and fish through sustainable aquaponics, reduce reliance on traditional food sources, create local jobs, promote eco-friendly farming practices, and raise community awareness about health and well-being.

### Project Impact:

- Increased access to high-quality organic vegetables and fish.
- Reduced reliance on traditional food sources through sustainable aquaponics.
- Created local employment opportunities in production and marketing.
- Promoted eco-friendly farming and enhanced local biodiversity.
- Contributes to SDGs 2, 8 & 12.

**Total number of projects:** 1

**Total Amount Disbursed:** RM40,000

### Pertubuhan Sahabat Komuniti Sejahtera DUN Langkap, Setiu Terengganu

#### Solution Provider:

Pertubuhan Sahabat Komuniti Sejahtera DUN Langkap, Setiu Terengganu was established in 2019. The organization's past work includes youth sports activities, and it is now focused on developing a free-range chicken farming enterprise. For this project, it will collaborate with the District Religious Office to obtain slaughtering certification for its members.

#### Project Description:

- Collaborated on the "Penternakan Ayam Kampung" project, which aims to address market demand inconsistencies by establishing a better production cycle to supply a minimum of 500 chickens weekly.

#### Project Impact:

- Generated additional income for members through participation in the poultry industry.
- Created new employment opportunities for members through the project's expansion.
- Established a direct supply chain of processed chicken to local restaurant operators and food businesses.
- Contributes to SDGs 1, 4 & 17.

### Diy Hydroponic Agrofarm

#### Solution Provider:

Diy Hydroponic Agrofarm experienced hydroponics trainers since 2018, with proven expertise in designing, implementing, and managing hydroponic farms, as well as delivering practical training to schools, universities, and public workshops.

#### Project Description:

- Collaborated on the “Projek Tanaman Sayuran Hidroponik – Membangun Komuniti Sihat Dan Bekerja”. This project aims to improve community health and income by providing home-based hydroponic systems, enabling affordable vegetable production for consumption and sale, while equipping participants with skills in sustainable farming and crop management.

#### Project Impact:

- Increased community participation and engagement.
- Enhanced skills and knowledge in hydroponic farming.
- Improved productivity and promoted environmental sustainability.
- Strengthened collaboration between grassroots groups and agencies.
- Contributes to SDGs 1, 2, 8 & 12.

### Lambo Sari Resources

#### Solution Provider:

Lambo Sari Resources, a sole proprietorship social enterprise, was established on February 17, 2019. Its main focus is providing a platform for nature-based and interactive arts activities, cultural exploration, and tourism packages. The organization is a member of the Pertubuhan Keseniaan dan Kebudayaan Daerah Kuala Nerus (PKKDKN) Terengganu and collaborates with skilled dance choreographers for its programs.

#### Project Description:

- Collaborated on the “Pemuliharaan Seni Dan Teknik Tarian Tradisional Melayu Melalui Kumpulan Penari Cilik” project, which aims to preserve traditional Malay dance by establishing and training a dance troupe of kindergarten-aged children.

#### Project Impact:

- A new generation of traditional dancers was established to preserve the art form inherited from previous practitioners.
- The project strengthened the appreciation of cultural arts and heritage among the children involved from an early educational stage.
- It successfully created an opportunity for the trained participants to generate income through dance performances.
- Contributes to SDGs 1, 4 & 8.

**Cikning Craft**

**Solution Provider:**

Cikning Craft, officially registered on May 21, 2024, has been operating for over a decade, focusing on creating and selling authentic Terengganu batik crafts, particularly handbags. The enterprise actively collaborates with various institutions, including Kolej Komuniti Kuala Terengganu for training and Universiti Malaysia Terengganu as a supplier, demonstrating strong community and industry engagement.

**Project Description:**

- Collaborated on the “Pemuliharaan Batik Terengganu Melalui Komuniti Jahitan Kraf” project, which addresses the decline of authentic batik due to the market proliferation of printed imitations and the low commercial value of genuine batik crafts.

**Project Impact:**

- Increased the craft sewing skills of women in the community through specialized training workshops.
- Stimulated the local economy by creating new business opportunities for local batik craft artisans.
- Preserved the cultural heritage of Terengganu batik by educating a new generation of artisans.
- Contributes to SDGs 1, 4 & 8.

### Mercu Sinaran Enterprise

#### Solution Provider:

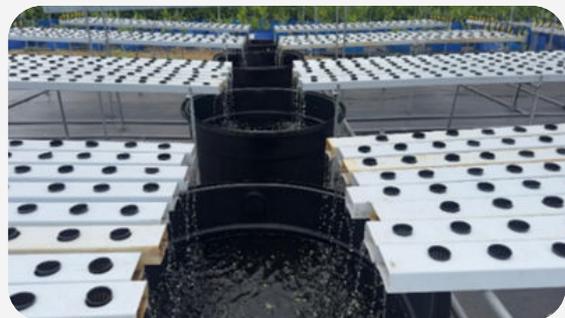

Mercu Sinaran Enterprise has experience in engineering with 8 years in aquaponic system design, development, and management since 2016, including fish tanks, water circulation, filtration, and optimizing plant and fish health. Has managed successful hydroponic projects in Kuala Ibai, applying strong project management skills and sustainable agriculture practices to maximise yields while minimising environmental impact.

#### Project Description:

- Collaborated on the "Projek Akuaponik - Integrasi Antara Penternakan Ikan Dan Penanaman Sayuran Organik". This project aims to improve food security and economic benefits by enabling residents to grow organic vegetables and farm fish, ensuring a fresh supply while reducing reliance on external sources, saving on groceries, and generating income from surplus sales.

#### Project Impact:

- Improved community participation and engagement through shared gardening and fish farming activities.
- Enhanced knowledge and skills in aquaponics system management.
- Increased productivity and sustainability by producing fresh, organic vegetables and fish locally.
- Strengthened collaboration among residents in maintaining the community garden.
- Contributes to SDGs 1, 2 & 12.

### HNWK Global Resources

#### Solution Provider:

HNWK Global Resources has a strong agricultural background, specialising in developing and managing fertigation systems, including table-top onion farming in Kampung Banggol Cempedak. Skilled in project management and applying agricultural knowledge to maximise yields, boost community income, and minimise environmental impact, they have also shared expertise on impactful fertigation practices.

#### Project Description:

- Collaborated on the "*Projek Tanaman Bawang Secara Fertigasi Meja*", which the project aims to enhance local food production and sustainable farming in Kampung Kesom by training 10 B40 and M40 participants in structured table fertigation onion cultivation through 12 practical sessions.

#### Project Impact:

- Built community capacity in modern, efficient onion farming using table fertigation systems
- Improved local food production and farming productivity through systematic cultivation methods
- Enabled income generation from the sale of onions and green onion leaves
- Promoted sustainable agriculture and reduced reliance on conventional farming practices
- Contributes to SDGs 1, 2, 4 & 5.

### Kelab Belia Kampung Gunung

#### Solution Provider:

Established on 18 April 1988, the cooperative is active in the food industry, specializing in IKS products, frozen foods, and pastries. It focuses on creating income-generating opportunities for the local community, especially B40 individuals, and collaborates with other local associations like GPW and MBFM, achieving regional awards for their culinary efforts.

#### Project Description:

- Collaborated on the "Pembuatan Produk Makanan IKS" project, which addresses a dual challenge: a high market demand for the Solution Provider's (SP) IKS food products that is unmet due to a shortage of skilled labor, and a local community that lacks the specific manufacturing skills and equipment.

#### Project Impact:

- Trained 10 participants in the manufacturing techniques for various IKS food products, from raw material preparation to packaging.
- Provided participants with stable monthly income through direct employment opportunities with the solution provider.
- Equipped participants with marketing skills, including business canvas modeling and digital marketing on various online platforms.
- Contributes to SDGs 1, 8 & 4.

**Solution Provider:**

Khairul Azuan Trading is an organisation established in 2019. The solution provider has experience working in an entrepreneur's garden Chinese vegetables in Jerantut for 5 years. After 5 years, he started his own vegetable and fruits farming until now.

**Project Description:**

- Collaborated on the “Penanaman Tembikai Secara Konvensional” in Jerantut, Pahang, with 1 acres of land. This project aims to develop a high-income watermelon farming community by providing local villagers with job opportunities, hands-on agricultural training, entrepreneurship courses, and modern farming knowledge using technology. The targeted average income that they will provide is around RM60,000 for 2-3 cycles of harvesting.

**Project Impact:**

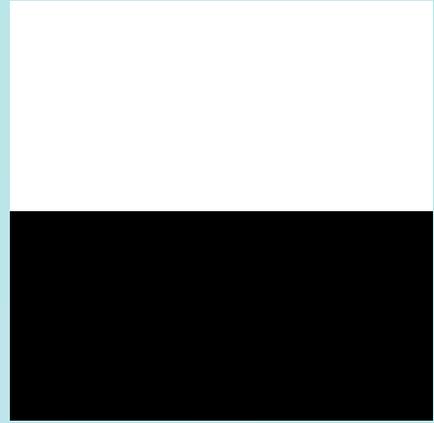

- Created a new source of income through watermelon farming
- Generated job opportunities for the local community
- Improved practical skills in modern watermelon cultivation
- Developed local agri-entrepreneurs through entrepreneurship training
- Contributes to SDGs 1, 2, & 8.

### JPKK Kampung Tanjung Medang Hulu

#### Solution Provider:

JPKK Kampung Tanjung Medang Hulu is an organization responsible for administering and managing a village, including identifying and coordinating development projects. It operates under the jurisdiction of the Ministry of Rural and Regional Development and collaborates with the local District Office.

#### Project Description:

- Collaborated on "Tanaman Pisang Dan Kontan Di Kawasan Kediaman Dan Tanah Terbiar Di Kampung Tanjung Medang Hulu, Pekan" project, which addresses the rising cost of living by enabling low-income households to cultivate bananas and cash crops on available residential and unused land.

#### Project Impact:

- Participants successfully increased their supplementary income through the sale of their farm's produce, which helped to reduce the income gap.
- Participants acquired new knowledge in the agricultural industry through "action-based learning" modules covering project planning, management, and marketing.
- The project yielded produce that adhered to good agricultural practices for the local market, contributing to the national food security initiative.
- Contributes to SDGs 1, 4 & 8.

### JPKK Kampung Tanjung Pulau / Pulau Manis

#### Solution Provider:

JPKK Kampung Tanjung Pulau / Pulau Manis is a government-appointed body at the village level focused on community development. It is composed of 13 committee members, most of whom are self-employed as farmers and traders, and it administers three villages.

#### Project Description:

- Collaborated on the “Tanaman Kacang Tanah” project, which involves the cultivation of peanuts, a crop selected for its suitability to the local sandy, riverside soil in a flood-risk area.

#### Project Impact:

- The project eased the participants' cost of living through the self-production of food.
- It successfully functioned as a strategy to encourage social interaction among local residents.
- It helped to increase the participants' self-motivation by enabling them to form a community and work as a team to produce food for their own use or for sale.
- Contributes to SDGs 1, 4 & 5.

## 2025 DIRECTORY

### Rising Impact through Sustainable Empowerment (East Coast Zone)

This directory for the East Coast Zone highlights the impactful work of the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG) and its 80 Solution Providers in the East Coast Zone.

Our efforts to localize the SDGs are driven through two core fronts: Community-Based Development Projects, involving 50 Solution Providers, and Food Security Projects, involving 29 Solution Providers.

The community development projects address the zone's diverse social, economic, and environmental needs, fostering holistic progress from the ground up. In parallel, the Food Security initiatives specifically strengthen food security, empower smallholders, and build sustainable agricultural resilience for local families.

This publication documents these vital grassroots solutions, serving as a testament to the power of collaboration in the East Coast Zone. It is an essential reference for leaders, policymakers, and all stakeholders committed to building an inclusive and sustainable future for Malaysia.
