EDITORS & CONTRIBUTORS

VIKNESWARAN SUNDERAM

Officer,
Community Based Development Projects,
Project Management Department

Vikneswaran overseeing North Zone and CBDP within the Project Management Department and holds a Master of Business Administration. He is an experienced leader known for driving efficient, impactful initiatives with a focus on community development. Passionate about sustainable growth, he works closely with local communities while continuously deepening his expertise in social development. His approach to project monitoring emphasizes clear communication, alignment with project goals, and successful delivery of initiatives.

KARTIGA KANNA DASAN

Officer (Northern Zone),
Community Based Development Projects,
Project Management Department

Kartiga Kanna Dasan is a Human Development graduate and Master's student in Developmental Psychology. She has experience in child protection and online safety for children. She manages community-based projects in the Northern Zone, focusing on delivering meaningful impact for local communities while continuously growing her expertise in social development.

ROSE HELEN AMBROSE

Officer (Northern Zone),
Food Security,
Project Management Department

Rose holds a Bachelor's Degree in Business Administration (Hons) in Entrepreneurship from Universiti Utara Malaysia (UUM), Kedah. She previously worked as an Operations Manager for five years, overseeing multiple departments. She now manages APPGM-SDG's first model farm, the Ipoh Model Farm, established in 2023 to support local communities, students, and farmers, while also overseeing community farming projects and SDG programmes in the northern zone.

EDITORS & CONTRIBUTORS

DARSHINI RAWICHANDRAN

Officer,
Food Security,
Project Management Department

Darshini overseeing projects in the Southern Zone. She holds a Master's in Agricultural Technology (UPM), specializing in soil microbiology and fertility, and a Bachelor's in Plant Science and Resource Management (UNIMAS). Previously, she served as a Research Officer at FRIM, contributing to soil management projects under the 12th Malaysia Plan. An active member of the Malaysian Society of Soil Science (MSSS), she has published in local and international journals. Her work focuses on sustainability and empowering communities through eco-friendly practices.

NUR SHAI DATUL SAHIRA

Officer,
Food Security,
Project Management Department

Shaidatul holds a degree in Environmental Management from Universiti Malaya, with a foundation in sustainable development, resource management, and environmental policy. She leads food security initiatives in the Central Zone, focusing on community resilience, sustainable agriculture, and access to affordable, nutritious food. She coordinates stakeholders, implements grassroots solutions, and ensures projects deliver lasting impact for local communities.

DANA CLAUDIA UNDAN DUMPANGOL

Former Assistant Director,
Food Security,
Project Management Department

Dana oversees community farming projects in Sabah and the Central Zone, focusing on food security and grassroots empowerment. She holds a combined honours degree in Geography and Geology from Keele University, UK. Her research includes a study of tree species in Borneo's forest reserves with the Imbak Canyon Conservation Area and a geological mapping project in Snowdon District, Wales. Her interests lie at the intersection of people and the environment, combining natural and social sciences to promote sustainability and community resilience.

FOREWORD

JAMES RYAN RAJ

*Acting Deputy Executive Director,
APPGM-SDG Secretariat*

In 2024, the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG) deepened its grassroots engagement through the expansion of Food Security Initiatives and Community-Based Development Projects (CBDP) across Malaysia. Together, these initiatives reflect APPGM-SDG's commitment in empowering communities, promoting sustainability, and advancing inclusive, locally driven solutions to national challenges.

Under the CBDP framework, APPGM-SDG expanded its reach to 115 parliamentary constituencies, resulting in 325 community-based projects nationwide. These initiatives were developed under three interlinked themes: Economy, Social, and Environment, embodying a holistic, people-centred approach to sustainable development. Within this broader national landscape, the Northern Zone emerged as a shining example of what can be achieved through collaboration, shared vision, and local leadership.

Across 37 constituencies in the Northern Zone, 96 community-based projects and 29 food security initiatives were implemented to strengthen community resilience, improve livelihoods, and promote sustainable agriculture. These initiatives span an inspiring range from programmes that ignite local economies through entrepreneurship and innovation, to social efforts that foster inclusivity, education, and well-being, and environmental projects that safeguard ecosystems and promote responsible resource management.

The success of these Northern projects is a testament to the leadership and dedication of the officers and teams driving them. Vikneswaran Sunderam and Kartiga Kanna Dasan, Officers for Community-Based Development Projects in charge of the Northern Zone, provided steadfast leadership and coordination, ensuring that local partnerships and governance mechanisms remained strong and transparent. Rose Helen Ambrose, the Project Officer for Food Security, played a pivotal role in ensuring that every initiative was effectively managed, closely monitored, and aligned with the principles of inclusivity and sustainability.

Through their collective efforts, communities across the zone have embraced new forms of skillsets, entrepreneurship opportunities, digital training, skill development programs, education initiatives, environmental projects, cash crop cultivation, sustainable farming practices, and modern agricultural technologies. These transformative efforts have become both an economic opportunity and a powerful means of empowerment.

Supported through various microgrants for training, infrastructure, and production systems, these initiatives have successfully revitalised rural participation and strengthened community resilience. The continued commitment to inclusive development inspires innovation and collaboration, ensuring that no community is left behind in the journey toward sustainable growth and empowerment.

At a time of rising living costs, these projects have served as a lifeline for many families, offering improved household incomes. They demonstrate how modest funding, when paired with vision and collaboration, can yield lasting change by building capacity, instilling confidence, and strengthening social bonds within communities.

The APPGM-SDG Secretariat has continued to refine its governance framework for project recruitment, grant disbursement, and monitoring, ensuring transparency, accountability, and efficient implementation. This governance framework now serves as a benchmark for other public and community programmes, maximizing socio-economic impact at the grassroots level.

This Northern Zone Directory documents the 29 Food Security projects and the 96 CBDP initiatives implemented across the zone. Each entry outlines the objectives, participating organisations, and grant details collectively reflecting Malaysia's shared commitment to advancing the Sustainable Development Goals (SDGs) through innovation, inclusivity, and sustainability.

Ultimately, these may be micro projects, but they are the seeds of larger, resilient community-based systems proof that sustainable transformation begins with people. They embody the spirit of Malaysians redefining food security, community development, and environmental responsibility through collective action and local wisdom.

Our heartfelt gratitude also goes to Nur Farah Ezzaty, Director of Project Management Department, the community-based development projects unit and the food security unit for their dedication in compiling and documenting this directory, and to Prof. Datuk Dr. Denison Jayasooria, Head of the Secretariat, for his visionary leadership and unwavering support. Special thanks are due to Zoel Ng and the Communications Team, whose creative design and storytelling bring to life the

achievements and aspirations of Malaysia's Community-Based Development champions.

As APPGM-SDG continues its journey to strengthen Malaysia's sustainable development ecosystem, the Northern Zone stands as a beacon of collaboration, trust, and hope, proving that when communities are empowered, the possibilities are boundless.

Together, we are shaping a future where communities are inclusive, resilient, and sustainable, a future built by the people, for the people, and with the people.

INTRODUCTION

NUR FARAH EZZATY ABD AZIZ

Director

Project Management Department

APPGM-SDG Secretariat

Serving as Director of the Project Management Department under the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG), I am honoured to introduce the North Zone Directory, a tribute to the solution providers and officers whose dedication has transformed our initiatives into lasting community impact.

This Directory is more than a compilation of data, it is a reflection of the partnerships, perseverance, and shared vision that define our work. Under the strong support of Dr. Thanaraj Murudi as Zone Head, and with the tireless dedication of our project officers, Vikneswaran Sunderam together with Kartiga Kanna Dasan for the Community-Based Development Project (CBDP) and Unit Rose Helen Ambrose for the Food Security (FS) Unit, the North Zone has made remarkable progress in advancing our mandate. Our officers have worked closely with solution providers, not only through structured monthly reporting but by being physically present on the ground, ensuring that projects remain on track and that communities feel supported.

In the Community-Based Development Project (CBDP) Unit, the North Zone has delivered 96 projects, spanning 34 Social, 60 Economic, and 2 Environmental initiatives. These were made possible through the involvement of 96 solution providers and have benefited 3,222 participants across 37 parliamentary constituencies. This extensive reach reflects the North Zone's commitment to inclusive and sustainable growth, enhancing livelihoods, supporting entrepreneurship, and promoting environmental care.

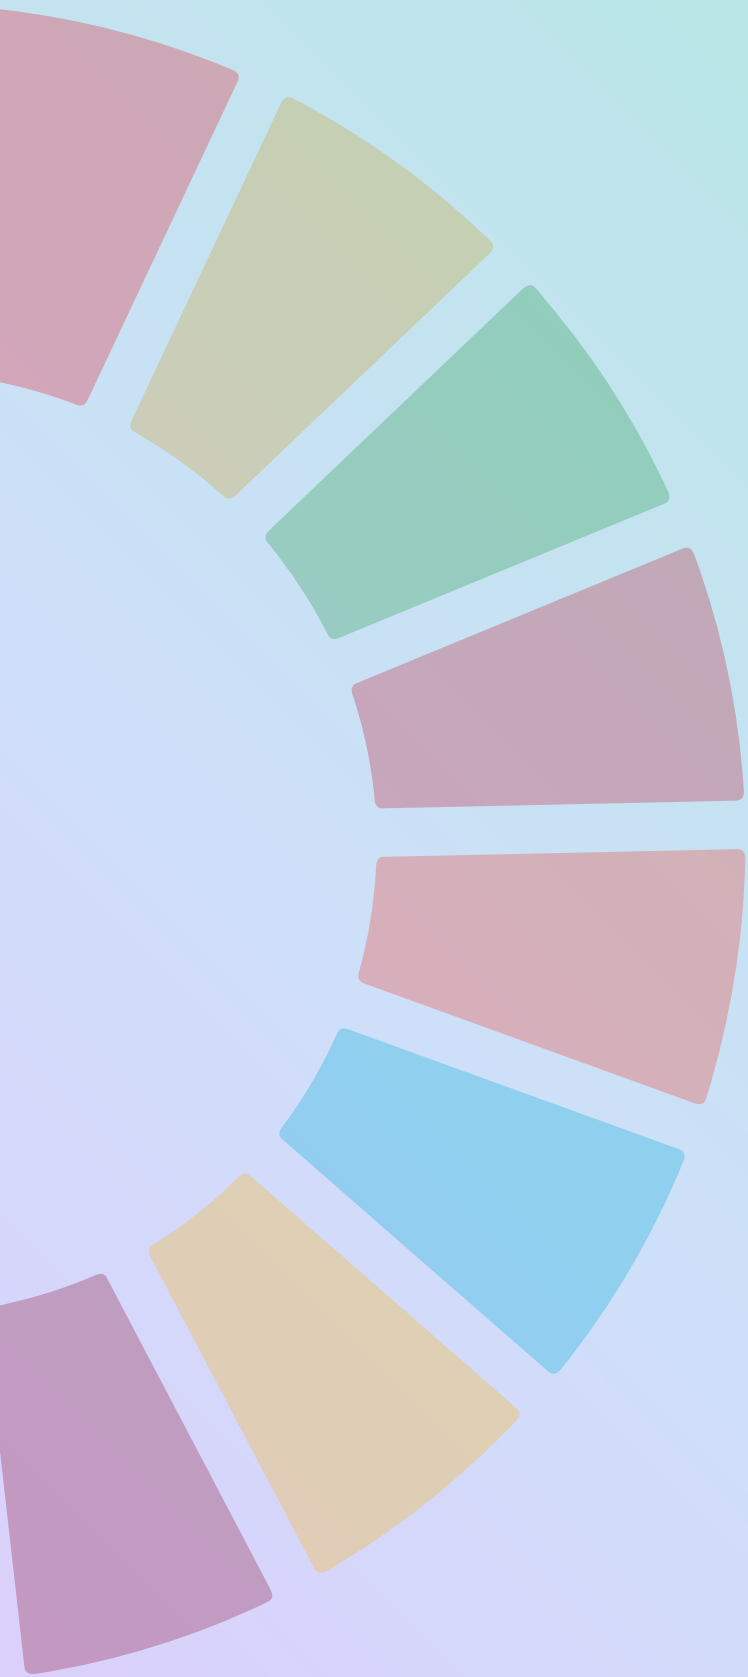

In the Food Security Unit, the North Zone has successfully implemented 30 projects, comprising 26 Farming (Agriculture) projects and 4 Animal Breeding projects. These have been delivered with the expertise and commitment of 30 solution providers, reaching a total of 310 beneficiaries. Each initiative focuses on strengthening local food production capacity, increasing access to fresh produce and protein sources, and equipping communities with the skills and tools necessary to maintain self-sufficiency in the long term.

These numbers tell a powerful story. With 57 projects implemented across two major units, supported by 59 dedicated solution providers, the South Zone has touched the lives of 1,682 beneficiaries. This is not only a testament to the hard work of our officers and partners but also an illustration of SDG 17 in action, forging partnerships that multiply impact and bring tangible improvements to communities. Every figure represents real change, built through trust, collaboration, and shared responsibility between APPGM-SDG, our solution providers, and the communities we serve.

North Zone Project Overview

UNIT	PROJECT CATEGORY	NO OF PROJECTS	NO. OF SOLUTION PROVIDER	NO OF BENEFICIARIES
Food Security	Farming	20	34	310
	Animal Breeding	9		
Total FS		29	34	310
Community-Based Development Project (CBDP)	Social	34	94	1273
	Economy	60		
	Environment	2		
Total CBDP		96	96	3222
Grand Total		125	130	3532

These numbers tell a powerful story. With 124 projects implemented across two major units, supported by 124 dedicated solution providers, the North Zone has touched the lives of 3,532 beneficiaries. This is not only a testament to the hard work of our officers and partners but also an illustration of SDG 17 in action — forging partnerships that multiply impact and bring tangible improvements to communities. Every figure represents real change, built through trust, collaboration, and shared responsibility between APPGM-SDG, our solution providers, and the communities we serve.

Al-Jazari Centre of Excellence

Al Jazari Centre of Excellence Sdn Bhd has extensive experience in managing and implementing community development projects, particularly those involving individuals with disabilities (OKU) and youth. With the OKU Community Center in Batu Bertangkup, Chuping, approved by the Department of Social Welfare (JKM), the organization aims to enhance the services and facilities available for the OKU community and youth.

Project Description:

- Collaborated on "Pusat Kecemerlangan dalam Projek Pusat Pembelajaran Komuniti Chuping", which aimed to renovate and equip Chuping Community Learning Centre to serve 20 disabled and low-income youth with vocational training. Improvements included accessible pathways, safety features, ergonomic furniture, and outdoor learning spaces, creating a safe, welcoming environment that supports skill development and community collaboration.

Project Impact:

- Improve employability of participants through market-relevant vocational training and skills development.
- Empower individuals with disabilities and low-income youth to achieve financial independence and self-sufficiency.
- Contributes to SDGs 4, 8 & 10.

Total number of projects: 3

Persatuan Kebajikan Ehsan Negeri Perlis (Perkesan)

Solution Provider:

Persatuan Kebajikan Ehsan Negeri Perlis (Perkesan), an existing solution provider, supports the community by supplying health equipment to chronic patients and organizing agricultural training for the Siamese community, aiming to improve skills, income, and overall quality of life.

Project Description:

- Collaborated on "Program Pembangunan Pertanian Komuniti Siam", which aimed to renovate the Siam community hall in Kampung Kubang Lenga to provide training for 20 local farmers and youth on modern agriculture and sustainable resource management. It fostered knowledge sharing, preserved traditional practices, and strengthened community cooperation for long-term growth.

Project Impact:

- Improve farming techniques for higher yields and better resource management.
- Increase food security and economic stability for the Siam community.
- Contributes to SDGs 2, 4, & 8.

INTEGRATED FARMING

Padang Besar, Perlis

Pertubuhan Orang Kurang Upaya Negeri Perlis

Solution Provider:

Pertubuhan Orang Kurang Upaya Negeri Perlis, established in 2003 and engaged in gardening activities, fostering environmental awareness, improving physical and mental well-being, and supporting sustainable community development.

Project Description:

- Collaborated on the “Penanaman Integrasi Pokok Gac dan Cili Fertigasi di Pusat Komuniti OKU”, which is the project designed to create accessible gardening spaces for People with Disabilities (PWD). By promoting inclusivity, the project aims to empower PWD, strengthen social connections, and contribute to building more sustainable communities.

Project Impact:

- The project provided PWD with hands-on gardening experience
- The participants had the opportunity to generate income, contributing to their financial stability.
- The inclusive nature of the garden encourages community solidarity and promotes understanding and respect for diversity.
- Contribute to SDGs 1 & 2.

PERTUBUHAN MENDIDIK KOMUNITI (Community Rising)

Kepala Batas, Pulau Pinang

Solution Provider:

PERTUBUHAN MENDIDIK KOMUNITI (Community Rising) is a Penang NGO empowering communities since 2014 through social, educational, and economic programs that promote sustainable development, resilience, and inclusivity, uplifting marginalized groups for self-reliant communities.

Project Description:

- Collaborated on the "Rising Champions Football Coaching for Future Stars", which aimed to provide hands-on smartphone repair training for young adults in Taman Sembilang through 10 modules over 12 sessions. Participants learnt practical repair skills for Android and iPhone devices, alongside business management and digital marketing. Each received RM1,470 worth of technical tools as seed funding, with six months of voluntary monitoring to support business growth and sustainability.

Project Impact:

- Enhances the physical fitness and well-being of young students through structured football training
- Builds teamwork, discipline, and sportsmanship via regular coaching sessions
- Contributes to SDGs 1, 4 & 10.

Total number of projects: 1

Kampung Setol Football Club

Solution Provider:

Kampung Setol Football Club, founded to preserve community sports, encourages local teens' active participation. Besides football, it offers coach training and promotes sepak takraw and netball, organizing holiday sessions to foster sportsmanship and deter unhealthy activities.

Project Description:

- Collaborated on "Projek Pembangunan Sukan", which aimed to engage boys (7–15) in football, girls (7–15) in netball, and men (20s–50s) in sepak takraw. Facilities included an upgraded sepak takraw court and football field. Continuous training, sports management education, friendly matches, and monitoring ensured sustained participation and skill development.

Project Impact:

- Promotes physical activity and overall health through regular use of sepak takraw and football facilities
- Engages youth in positive activities, reducing risks of vandalism, drug abuse, and other social issues
- Contributes to SDGs 1, 3 & 4.

Artz Niaga Enterprise

**ARTZ NIAGA
ENTERPRISE**

Solution Provider:

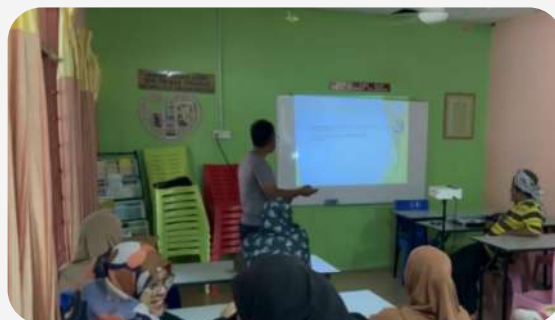

Artz Niaga Enterprise has implemented a sustainable poultry farming initiative, including producing their own chicken feed and conducting educational seminars. The SP has also partnered with Pertubuhan Keperluan Asas Rakyat Pulau Pinang to provide healthy food for the homeless, reflecting their strong commitment to community welfare.

Project Description:

- Collaborated on the "Penternakan Ayam Penelur Di Pengkalan Hulu", which aimed to train 10 participants to start small-scale chicken farms by providing a coop, 50 hens, and essential materials. It sought to generate stable income, promote sustainability, and foster community collaboration. Continuous support was provided to ensure long-term success and poverty reduction.

Project Impact:

- B40 participants are supported to start their own businesses, generating new and sustainable income
- Women are empowered through upskilling and entrepreneurial opportunities. Community sustainability is promoted through good farming practices and positive social impact
- Contributes to SDGs 1, 2 & 5.

Total number of projects: 1

Global Progressive Enterprise

Solution Provider:

Global Progressive Enterprise is an organisation focused on community empowerment through entrepreneurship and skill-building. With a commitment to sustainable development, the enterprise supports income-generating activities and provides training that uplifts underserved communities, particularly in rural and semi-urban areas.

Project Description:

- Collaborated on the "Penanaman Napier Untuk Sumber Makanan Haiwan Ternakan", which aimed to reduce livestock feed costs by cultivating affordable Napier grass while generating income through sales to other breeders. Targeting 10 B40 small-time breeders (5 women, 5 men), it provided training in planting, land management, and marketing to enhance income and self-sufficiency.

Project Impact:

- Participants will receive continuous guidance and advice on Napier planting and production
- Ongoing feedback will help improve productivity and business growth
- Contributes to SDGs 1, 2 & 5.

AHADA MAJU RESOURCES

Solution Provider:

AHADA MAJU RESOURCES was established in 2019 to become a key player in the construction and tourism sectors in Gerik. The organization is also actively involved in humanitarian missions, collaborating with NGOs from Perak to support charitable initiatives, particularly among indigenous communities in the Gerik parliamentary area.

Project Description:

- Collaborated on the "Community Based Tourism bersama Komuniti Gerik", which aimed to promote sustainable tourism by developing community-led packages that highlight local culture and conservation. In collaboration with local entrepreneurs, activities included heritage tours and eco-projects. A local committee was formed to manage and supervise tourism efforts, ensuring ongoing community engagement and ownership.

Project Impact:

- Raise awareness on environmental and local cultural sustainability
- Create income opportunities and support community-based economies. Promote responsible tourism practices that benefit both people and nature
- Contributes to SDGs 1, 8 & 11.

Rimba Asli

Solution Provider:

Rimba Asli, a social enterprise supporting indigenous-led reforestation and conservation, implements the project with the Jahai community using APPGM-SDG funds channelled through KOAST

Project Description:

- Collaborated on Taman Dapur, Tapak Semaian dan Penanaman Pokok Buah Nadir Kaum Jahai di Kg. Klewang, Royal Belum, which aims to establish and upgrade a large, sturdy, and well-equipped tree nursery; train participants in setting up and managing nurseries; and empower women by recognising and rewarding their contributions, thereby increasing their confidence and willingness to participate in food security and forest conservation efforts.

Project Impact:

- Established and upgraded a large, sturdy, and functional tree nursery with additional equipment contributions from participants.
- Trained participants to be skilled in setting up and managing nurseries.
- Contribute to SDGs 2, 5 & 15.

Rainhill Agro

Solution Provider:

Rainhill Agro grows fresh, organic produce through sustainable farming that enriches the soil, protects biodiversity, and supports communities—preserving the planet for future generations.

Project Description:

- Collaborated on the “High Volume Integrated Organic Vertical Farming in Greenhouse” project. This project achieves high yields in limited spaces, enabling farmers to maximise land use while increasing income. Organic farming methods help prevent soil degradation and environmental pollution and provide communities with healthier meals free from chemical contamination.

Project Impact:

- Maximises productivity in small spaces while boosting farmers’ income.
- Protects soil health and reduces environmental pollution.
- Supplies chemical-free, nutritious food to local communities.
- Contribute to SDGs 1, 2 & 13

Sweet Corn Ipoh Chemical Free Enterprise

Solution Provider:

Sweet Corn Ipoh Chemical Free Enterprise focuses on sustainable agriculture, community awareness, and training. It has three years of experience in oyster mushroom cultivation, vegetable packaging, and digital marketing. The trainer brings 24 years of agricultural expertise, specializing in oyster and lion's mane mushrooms, and manages a farm in Cameron Highlands.

Project Description:

- Collaborated on the "Penanaman Cendawan Tiram". The project aims to expand oyster mushroom cultivation through an Easy Farming system, enabling participants to operate individual mushroom houses, generate sustainable income, and support household consumption while addressing high market demand.

Project Impact:

- Exposing participants to skills and the field of oyster mushroom cultivation at each participant's home to increase income
- Expose participants to innovative mushroom products such as fried mushrooms and crackers
- Provide basic knowledge of the food industry, digital marketing, and packaging
- Reduce reliance on expensive food imports through local production and sales
- Generate income and create opportunities for entrepreneurship.

Contribute to SDG 2, 4, and 8

2025 DIRECTORY

Rising Impact through Sustainable Empowerment (Northern Zone)

This directory for the Northern Zone highlights the impactful work of the All-Party Parliamentary Group Malaysia on Sustainable Development Goals (APPGM-SDG) and its 125 Solution Providers in the Northern Zone.

Our efforts to localize the SDGs are driven through two core fronts: Community-Based Development Projects, involving 96 Solution Providers, and Food Security Projects, involving 29 Solution Providers.

The community development projects address the zone's diverse social, economic, and environmental needs, fostering holistic progress from the ground up. In parallel, the Food Security initiatives specifically strengthen food security, empower smallholders, and build sustainable agricultural resilience for local families.

This publication documents these vital grassroots solutions, serving as a testament to the power of collaboration in the Northern Zone. It is an essential reference for leaders, policymakers, and all stakeholders committed to building an inclusive and sustainable future for Malaysia.
